

Secret Object

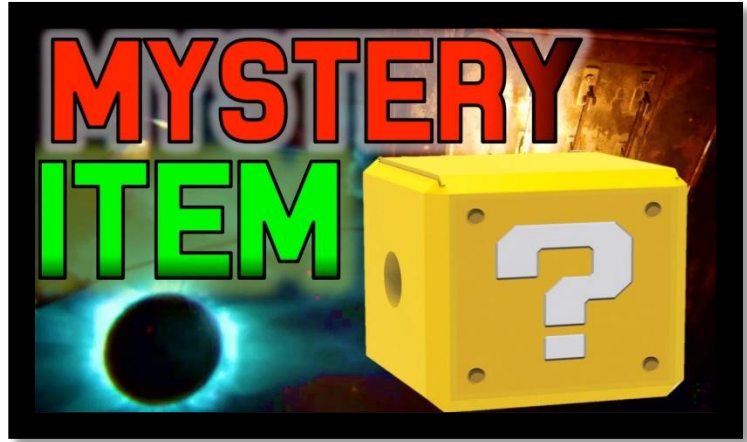

Definition Writing

Resources:

Objects

Cloth (something to cover the object)

Paper

Step 1:

Show class that you have a secret object.

Ask them (students are in pairs), what they think it might be.

Then, start to read to them your definition. (make the definition not too obvious)

Time the activity:

<5 seconds = 15 points

<10 = 10 points

<20 seconds = 5 points

30 seconds = 0 points

Step 2:

Now, give each student pair an object...they must keep it secret, and write down a definition for it.

Then they can read it to another pair, or come up to the front of the class and read it to everyone...time and test...the pair with the most points wins.
